1. (U) INSPECTOR GENERAL ACTIVITIES

a. (C//SI) During this quarter, the Office of Inspector General (OIG) reviewed various intelligence activities of the National Security Agency/Central Security Service (NSA/CSS) to determine whether they were conducted in accordance with applicable statutes, Executive Orders (E.O.s), Attorney General (AG) procedures, and Department of Defense (DoD) and internal directives. With few exceptions, the issues presented were routine and indicated that the operating elements understand the restrictions on NSA/CSS activities.

b. (U// FOUO) NSA OIG inspectors completed an inspection of the (b) (3)-P.L. 86-36
on 31 March 2006. The intelligence oversight
program was found in good order.
c. (U// FOUO) Stemming from the NSA OIG special study of the access to Signals
Intelligence (SIGINT) by a review of
possible E.O. 12333 infractions in areas unrelated to NSA/CSS was conducted
(report dated 28 February 2006). There were no E.O. 12333 violations or improper
management in action related to the review.
d. (S) Last quarter, we reported alleged misuse of a SIGINT Database by a employee (report dated 28 February 2006). The (b) (3)-P.L. 86-36 incident has been referred to the OIG for action as deemed appropriate.
e. (U// FOUO) The special study of the NSA/CSS revealed deficient training accountability (report dated 22 August 2005). The has instituted a formal tracking and follow-up system to ensure training compliance.
f. (S//SI//NF) In the second quarter of fiscal year 2005 (report dated 17 May 2005), we reported the misuse of the U.S. SIGINT System. An NSA/CSS OIG investigation revealed that an NSA employee had misused the SIGINT system by conducting unauthorized electronic surveillance of a non-U.S. person abroad for no legitimate foreign intelligence purpose. The matter has been referred to the NSA/CSS Office of the General Counsel, for consideration of referral to the Department of Justice.
g. (U/ FOUO) As reported in the fourth quarter fiscal year 2004 (report dated 29 November 2004), inspectors from (b) (3)-P.L. 86-36 (b) (3)-P.L. 86-36

(S//SI) The OIG reported an investigation of unintentional collection of a U.S. person in the first quarter fiscal year 2004 (see report dated 17 March 2004). From NSA Signals Intelligence Directorate (SID) targeted the (b)(3)-P.L. 86-36 communications of a U.S. person located abroad without the required AG authorization. As a result of the OIG finding of shortcomings in the control environment, OIG recommendations for improvement have been implemented. 2. (U) GENERAL COUNSEL ACTIVITIES -(C//SI) The NSA/CSS OGC reviewed various intelligence activities of the NSA/CSS to determine whether they were conducted in accordance with applicable statutes, EOs, AG procedures, and DoD and internal directives. The OGC advised Agency elements on a number of questions, including the collection and dissemination of communications of, or concerning U.S. persons; the reporting of possible violations of federal criminal law contained in SIGINT product; the testing of electronic equipment, and the applicability of the Foreign Intelligence Surveillance Act (FISA). With few exceptions, the issues presented were routine and indicated that the operating elements understand the restrictions on NSA/CSS activities. 3. (U) SIGINT ACTIVITIES a.
