FAMILY HOUSING

PART 3

PAGES 327 - 350
POST ACQUISITION
CONSTRUCTION
require replacement. The units have inadequate living and storage, and no patio or backyard privacy. Pavement areas need renovation.

**IMPACT IF NOT PROVIDED:** Units will continue to deteriorate rapidly, resulting in increasing operations, maintenance, and repair costs to the Government and inconvenience to residents. Without this project repair of these units will continue in a costly, piecemeal fashion with little or no improvement in living quality. The impact will be major morale problems for those families living in substandard military family housing units and unacceptable financial hardships for military families on limited budgets occupying units meeting standards in the local community with higher rents.

**WORK ACCOMPLISHED IN PREVIOUS THREE YEARS:** None

**WORK PROGRAMMED FOR NEXT THREE YEARS:** None

**ADDITIONAL:** The scope of this privatization project has been reviewed by the installation commander and these units are severable according to the MFH Severability criteria contained in the AF FHMP. This privatization project contains no resale merchandise, services or commercial recreational operations or activities in accordance with the SAF/MII Housing Privatization Interim Operating Instructions memorandum dated 2 Mar 99 and AF/IL memo regarding coordination with AAFES, DeCA, and MWR Board dated 19 Mar 99. In the event Congress does not extend the privatization legislation, the Air Force will execute an improvement/replacement project consisting of 95 units in accordance with the installations HCP and at the programmed amount requested by this privatization candidate. BCE: Col John D. Fouser, (402)294-5500.

11. DESCRIPTION OF PROPOSED CONSTRUCTION:

Project funds will be used as leverage for a planned privatization project. If privatization unfeasible the funds will be used to improve 144 housing units. Project includes utility upgrade and additions to meet current standards. It also upgrades kitchens, bathrooms and floor coverings, improves floor plans, increases energy efficiency, and provides privacy fencing and patios.

12. REQUIREMENT:

PROJECT: Improve Military Family Housing (Phase 1).

This project is required to provide modern and efficient housing for military members and their dependents stationed at Tinker AFB. The housing must be upgraded to meet current life safety codes and to provide a comfortable and appealing living environment comparable to the off-base civilian community. This is the first of several improvement phases to upgrade 689 units to follow the 41 unit replacement project. All units will meet "wholehouse" standards and are programmed in accordance with the Housing Community Plan. Renovated housing will provide a modern kitchen, living room, family room, bedroom and bath configuration, with ample interior and exterior storage. Single car garages and off street parking will be provided where deficient.

CURRENT SITUATION:

This project upgrades and modernizes housing which was constructed from 1959 through 1968. These 40 year old houses require major renovation and repair to correct deterioration resulting from age and heavy use. They have had no major upgrades since construction, and do not meet the needs of today's families, nor do they provide a modern home improvement. Kitchen and bathroom cabinets and fixtures are obsolete and deteriorated. Plumbing and lighting fixtures are deteriorated and dated. The electrical systems do meet modern construction codes. The units have...

inadequate living space and storage.

IMPACT IF NOT PROVIDED: Units will continue to deteriorate rapidly, resulting in increasing operations, maintenance and repair costs to the government and inconvenience to residents. Without this project repair of these units will continue in a costly, piecemeal fashion with little or no improvement in living quality. Housing Market Analysis shows an on-base housing deficit of 359 units.

WORK ACCOMPLISHED IN PREVIOUS THREE YEARS: None.

WORK PROGRAMMED FOR NEXT THREE YEARS: None

ADDITIONAL: An economic analysis has been prepared comparing the alternatives of replacement, improvement, and status quo operation. Based on the net present values and benefits of the respective alternatives, improvement was found to be the most cost effective over the life of the project. This is a privatization candidate project. Base Civil Engineer: Colonel Michael Cuddehee (405)734-3451.

10. AREA COST FACTOR
    0.89

11. DESCRIPTION OF PROPOSED CONSTRUCTION:
    Conveys 488 existing single and multiplex family housing units for a privatization end state of 488 units on approximately 271 acres of leased land. The MILCON cost for this work is $18.0M. With no score cost, the leverage is maximized.

    Privatized units will meet current space and floor plan standards, and include amenities, support facilities, and infrastructure.

    REQUIREMENT: 2,181 UN
    ADEQUATE: 257 UN
    SUBSTANDARD: 1,181 UN

    PROJECT: Privatize Military Family Housing (Current Mission)

    REQUIREMENT: This project is required to provide access to modern and efficient housing for military members and their dependents stationed at Charleston AFB. Once conveyed 320 units must be upgraded to meet current life safety codes and to provide a comfortable and appealing living environment comparable to the off-base civilian community.

    CURRENT SITUATION: Housing units were constructed in 1964 and operated by the Navy until 1996. These houses require major renovation and repair to correct deterioration resulting from age and heavy use. The units received only minor upgrades since construction, and do not meet the needs of today's families, nor do they provide a modern home environment. Kitchen and bathrooms are obsolete and deteriorated. The remainder of the interior is deteriorated and dated. The electrical systems do not meet current codes. Windows and insulation require replacement. Pavement areas need renovation. Sanitary sewer and water lines are deteriorated and need to be replaced. Pole mounted electrical distribution system needs to be placed underground.

    IMPACT IF NOT PROVIDED: Units will continue to deteriorate rapidly, resulting in increasing operations, maintenance, and repair costs to the government and inconvenience to residents. Without this project, repair
of these units will continue in a costly, piecemeal fashion, with little or no improvement in living quality. There are no alternatives to living in inadequate or expensive housing if families desire to avoid lengthy and costly (both financially and psychologically) "voluntary" separations. The impact will be major morale and/or financial problems for the affected families.

WORK ACCOMPLISHED IN PREVIOUS THREE YEARS: None

WORK PROGRAMMED FOR NEXT THREE YEARS: None

ADDITIONAL: The installation commander agrees these units are severable. This privatization project contains no resale merchandise, services, or commercial recreational operations or activities in accordance with SAF/MI Housing Privatization Interim Operating Instructions memorandum dated 2 Mar 99 and AF/IL memorandum regarding coordination with AAFES, DeCA and MWR Board dated 19 Mar 99. A viable proforma and a preliminary economic analysis will be provided during the concept approval process, and a certified economic analysis will be accomplished prior to completion of the solicitation process. In the event Congress does not extend the privatization legislation, the Air Force will execute an improvement project of 18 units at the programmed amount requested by this privatization candidate. 11. DESCRIPTION OF PROPOSED CONSTRUCTION:
    Conveys 1116 existing family housing units for a privatization end status of 1166 units on
    approximately 301 acres of leased land. The MILCON cost for this work is
    $62.0M for an anticipated leverage of 6.6:1. Privatized units will
    provide modern interior/exterior conveniences, include amenities, support
    facilities and infrastructure.

12. REQUIREMENT:
    3,062 UN ADEQUATE: 2,350 UN SUBSTANDARD: 712 UN

PROJECT: Privatize Military Family Housing. (Current Mission)

REQUIREMENT: This project is required to provide access to modern and
    efficient housing for military members and their dependents stationed at
    Hill AFB. 688 units must be upgraded or replaced to meet current life
    safety codes and to provide a comfortable and appealing living environment
    comparable to the off-base civilian community.

CURRENT SITUATION: Housing units were constructed in 1963 and 1976.
    These 36 and 23 year old houses require major renovation and repair to
    correct deterioration resulting from age and heavy use. Few have had
    major upgrades since construction, and do not meet needs of today's
    families, nor do they provide a modern home improvement. Kitchen and
    bathroom cabinry is obsolete and deteriorated. Plumbing and electrical
    is deteriorated and does not meet current construction codes. Flooring is
    stained, worn and many areas contain asbestos. Windows, siding, and roofs
    require replacement. The units have inadequate living space and storage.
    and no patio or backyard privacy.

IMPACT IF NOT PROVIDED: Units will continue to deteriorate, resulting in
    increasing operating, maintenance, and repair costs to the Government and
    inconvenience to residents. Repair of these units will continue in a
costly, piecemeal fashion with little or no improvement in living quality.

are on the approved historic preservation plan (cultural resource management plan). All repairs and improvements must meet the historic preservation statutes. In accordance with the Defense Planning Guidance these units must be revitalized before Fiscal Year 2010. The Air Force Condition Assessment Matrices, prepared in 1999, identifies nearly every building system in these units as substandard. In many of these units major renovation is required to correct these deficiencies. Further, the Housing Community Plan recommends additions to several of the units to provide accommodation for family room or master bathroom. It also recommends provision for additional interior and exterior storage.

**IMPACT IF NOT PROVIDED:** Units will continue to deteriorate, resulting in increasing operations, maintenance and repair costs to the Government and inconvenience to residents. Without this project repair of these units will continue in a costly piecemeal fashion with little or no improvement in living quality.

**WORK ACCOMPLISHED IN PREVIOUS THREE YEARS:** FY98 - Replace Windows, MFH A/B, 11 units, $153,103; FY99 - Install Gas Fire Places, MFH A/B, 9 units $36,69; FY99/00 - Repair Fence at 1106, MFH A, 1 unit, $15,000

**WORK PROGRAMMED FOR NEXT THREE YEARS:** None

**ADDITIONAL:** An economic analysis has been prepared comparing the alternatives of new construction, improvement, and status quo operation. Based on the net present value and benefits of the respective alternatives, improvement was found to be the most cost effective over the life of the project. The cost to improve this housing is 64% of the replacement cost. Base Civil Engineer: Col Per Korslund (801)777-2299.

**FCF BUDGET RATE USED:** Yen 102.670  
**MOST EXPENSIVE UNIT** | $156,500  
**AREA COST FACTOR** | 1.50  

**10. DESCRIPTION OF PROPOSED CONSTRUCTION:** Provides general interior/ exterior modernization and renovation of 52 housing units. Includes utility upgrades, meet current standards. Upgrades kitchens/bathrooms, improves HVAC, plumbing and electrical systems, provides additional outside storage and parking spaces. Includes asbestos/lead-based paint removal, radon mitigation and landscaping. Grade Mix: 52 E1-E6  
**11. REQUIREMENT:** 10,051 UN ADEQUATE: 5,604 UN SUBSTANDARD: 3,523 UN  
**PROJECT:** Improve Family Housing Phase 1. (Current Mission)  
**REQUIREMENT:** This project is required to provide modern and efficient housing for military members and their dependents stationed at Kadena AB, Japan. Housing must be upgraded to meet current life safety codes and to provide a comfortable and appealing living environment. All units will meet whole house standards and are programmed in accordance with phase one of the Housing Community Plan. Renovated housing will provide a modern kitchen, living room, family room, bedroom, and bath configuration with ample interior and exterior storage. Units will be air conditioned.  
**CURRENT SITUATION:** This project will upgrade and modernize Sebille Manor housing, which was built in 1977 by the Government of Japan. These units have not received any major renovation since construction, and do not meet current standards. Kitchen and bathroom fixtures are obsolete and deteriorated. The unit floors, doors, lights, closets, heating/cooling systems, power system are antiquated requiring constant repair and are not energy efficient. The units lack outside area to store lawnmowers and tools. Visitor parking is not adequate. Remediation of hazardous materials is required.  
**IMPACT IF NOT PROVIDED:** Units will continue to deteriorate rapidly, resulting in increasing operations, maintenance and repair costs to the

FCF BUDGET RATE USED: Won 1,149.8

MOST EXPEN$IVE UNIT $202,000

AREA COST FACTOR 1.06

10. Description of Proposed Construction: In 2 GOQ and 8 SOQ units, remodel the master bedroom and bathrooms; replace all windows and doors with energy efficient models; implement force protection measures; replace boiler and chillers, along with associate HVAC equipment, ductwork, and piping in the units; replace underground fuel storage tank with above ground tank with containment, construct one-vehicle carports.

Grade Mix: 10 03-010.

11. REQUIREMENT: 446 UN ADEQUATE: 94 UN SUBSTANDARD: 212 UN

PROJECT: Whole house improvements to 10 military family housing units to include construction of carports and repairs to mechanical equipment. This project includes work on 2 General Officers Quarters. (Current Mission)

REQUIREMENT: This project is required to provide modern and efficient housing for military members and their dependents stationed at Osan AB. The housing must be upgraded to meet current life safety codes and to provide a comfortable and appealing living environment comparable to the off-base civilian community. All units will meet "whole house" standards. Renovated houses will provide modern kitchen, living room, bedroom and bath configuration, with ample interior/exterior storage. Living units will be expanded to meet current space authorizations. Covered parking will be provided where deficient.

CURRENT SITUATION: Existing senior officer quarters (SOQ) and general officer quarters (GOQ) were constructed in 1977. All units have undergone various repair projects over the years, however, none meet overall quality of life standards. According to the General and Flag Officers' Quarters Plan (GFOQP) "the boilers and chillers are approaching the end of their service life and need to be replaced." Similarly, the GFOQP states "the
Air handling units are approaching the end of their service life and need replacement. Interior modifications are required to make the kitchens, laundry rooms and bedrooms more functional and comfortable. Water lines are deteriorating, significantly affecting the level of service inside the homes. All residents of these units are key and essential and must live on base. Based on Air Force Family Guide 4.7.1, dated December 1998, single carports are authorized.

**IMPACT IF NOT PROVIDED:** Without major improvements and repairs, the buildings will continue to deteriorate. If the conditions are allowed to persist, the livability of the units will degrade and adversely affect the family's quality of life. For force protection and readiness reasons, suitable off-base housing, even if it were available, is not an option for the key and essential senior and general officers who occupy these units.

**WORK ACCOMPLISHED IN PREVIOUS THREE YEARS:** None.

**WORK PROGRAMMED FOR NEXT THREE YEARS:** None.

**ADDITIONAL:** This project is sited within the boundaries of Osan AB which will be retained by United States Forces Korea for the foreseeable future. Alternate methods of meeting this requirement have been explored during project development. This project meets the criteria/space specified in Air Force Handbook 32-1084, Facility Requirements. An economic analysis will be prepared comparing the alternatives of new construction, acquisition, and status quo. This project has been coordinated with the installation security plan and all required physical security measures have been taken into account. The cost to improve these units is 46% of replacement cost. This project is not eligible for Host Nation Funding through USFK. SIOH is based on Army Corps of Engineers. FCF BUDGET RATE USED: Pound 0.6250

MOST EXPENSIVE UNIT $111,874

AREA COST FACTOR 1.48

Grade Mix: 1 01-02; 13 03-010; 23 E1-E4; 69 E5-E9.

11. REQUIREMENT: 148 UN ADEQUATE: 42 UN SUBSTANDARD: 106 UN

PROJECT: Improve Military Family Housing

REQUIREMENT: This project is required to provide modern and efficient housing for military members and their dependents stationed at RAF Fairford. The housing has to be upgraded to meet current life safety codes and to provide a comfortable and appealing living environment. Additional interior and exterior storage space is needed and extra garages and off street parking areas are also required.

CURRENT SITUATION: These houses were built in 1959 and 1960 and are now in urgent need of major renovation and repair to correct deterioration resulting from age and heavy use. They have had no major upgrades since construction, do not meet the needs of today's families and do not provide a modern home environment. The roof linings have disintegrated and the facia and soffit boards have rotted allowing birds and vermin to enter the roof space. Bathroom cabinets and fixtures are obsolete and deteriorated. Showers are not thermostatically controlled and temperature fluctuations are frequently experienced due to the poorly designed plumbing systems. The electrical wiring does not meet current regulations and the lighting fixtures are old and are not efficient. Flooring is vinyl in the living rooms and wood in the bedrooms. The wood floors are hard to maintain and...
clean and look bad and vinyl is not a suitable flooring for the lounge.
The units are smaller than the size currently authorized, are short of storage space. There are only 35 garages for 106 houses.

IMPACT IF NOT PROVIDED: Units will continue to deteriorate. More frequent and more costly maintenance and repair will be necessary resulting in more inconvenience to residents. Low morale and retention problems can be expected if such conditions continue to exist. The desire to live off-base, at increased cost to the government, will increase. New occupants will continue to go on a waiting list for a garage.

WORK ACCOMPLISHED IN PREVIOUS THREE YEARS: In Fy 1998 the original windows and secondary double glazing was replaced in all 106 units. In FY 1999 the kitchens are being refitted in 94 units.

WORK PROGRAMMED FOR NEXT THREE YEARS: None

ADDITIONAL: An economic analysis has been prepared comparing the alternatives of new construction, leasing, and status quo operation. Based on the net present values and benefits of the respective alternatives, improvement was found to be the most cost efficient over the life of the project. The cost to improve this housing is 48% of the replacement cost. This project is not eligible for NATO funding. BASE
