(U) A. MISSION DESCRIPTION AND BUDGET ITEM JUSTIFICATION:										
This project covers non-lethal weapon (NLW) systems which are those systems that by their design, do not inflict fatal or permanent injuries. Instead, these systems are designed to stun, incapacitate, or hinder movement of individuals, crowds, or equipment. The availability of NLWs allows commanders less than lethal options, particularly in urban warfare and military operations other than war, i.e., peacekeeping, humanitarian assistance and disaster relief, as well as special operations.										
PROGRAM ACCOMPLISHMENTS AND PLANS										
FY 2000 Accomplishments:										
<ul style="list-style-type: none"><li>• (U) \$ 1.023 Execution oversight and administration of the Joint NLW Program and technologies database expansion.</li><li>• (U) \$ 0.936 Evaluation of NLWs by Service warfighting laboratories for direct user feedback on various NL technologies and munitions.</li><li>• (U) \$ 0.705 Continued development of a modeling and simulation analysis tool for NLWs such as the Joint Conflict and Tactical Simulation (JCATS) model and performance effects data collection.</li><li>• (U) \$ 1.215 Continued pursuit of new technology through open competition of industry, academia and government lab sources for NL capabilities.</li><li>• (U) \$ 0.918 NL Crowd Dispersal Cartridge – Engineering &amp; Manufacturing Development of a NL round of munitions for the M203 40mm Grenade Launcher.</li><li>• (U) \$ 3.000 Established a technology innovation initiative to allow pursuit of new NL materials and technologies.</li><li>• (U) \$ 0.883 Ground Vehicle Stopper (GVS) – Continued evaluation of several proposed vehicle stopper technologies that have potential to stop/slow ground vehicles.</li><li>• (U) \$ 0.693 Vessel Stopper System (VSS) – Continued evaluation of NL means of stopping maritime vessels and small, fast moving boats.</li><li>• (U) \$ 4.328 Active Denial Technology (ADT) – Continued evaluation, testing and target assessment of a HMMWV mounted directed energy system.</li><li>• (U) \$ 2.320 66mm NL Munitions – Completed testing of the 66mm vehicle launched munitions for crowd control and site security missions.</li><li>• (U) \$ 0.533 Bounding NL Munitions – Continued development of NL bounding munitions to serve as an area denial/perimeter defense system.</li><li>• (U) \$ 1.670 Canister Launched Area Denial System (CLADS) – Continued development of NL munitions launched from a multi-platform mounted mine dispenser.</li><li>• (U) \$ 1.020 Foams – Continued evaluation and testing of both rigid and slippery foams and packaging delivery platforms.</li><li>• (U) \$ 1.076 Studies and Analysis – Medical and NL casualty data collection; strategic planning; human effects assessments; and technical studies/analysis of emerging technologies for possible NL application.</li><li>• (U) \$ 2.050 Concept Exploration Program (CEP) – Continued to explore and develop technical NL solutions to clear facilities and area denial for personnel.</li><li>• (U) \$ 0.054 Joint Integration Project (JIP) – Continued to select and test commercial products that will meet the Joint Services’ requirement for specific NL capability sets items.</li><li>• (U) \$ 2.022 Developed and evaluated new RDT&amp;E NLW technology initiatives.</li><li>• (U) \$ 0.796 Modular Crowd Control Munitions (MCCM) – Completed evaluation and testing of a vehicle-mounting bracket for MCCM on vehicles.</li><li>• (U) \$ 0.585 Running Gear Entanglement System (RGES) – Continued development of a NL entanglement capability to stop small, fast moving boats.</li></ul>										
(U) Total \$	25.827

<b>(U) C. ACQUISITION STRATEGY: *</b>										
The JNLWP strategy is to continue to pursue the fielding of NLW systems through modifying COTS products for near term capabilities and the development of new technology NLW systems in various stages of Acquisition. These are balanced with efforts in modeling and simulation, experimentation, and state-of-the-art technology investment. The Acquisition Strategy for each weapon system is largely lead service dependent.
