FY03-FY07 budget numbers do not reflect the DoD strategic review results.

(U) A. Mission Description

The Aircraft Engine Component Improvement Program (CIP) provides critical sustaining engineering support (only source) for in-service Air Force engines throughout their service life. Aircraft Engine CIP corrects service revealed deficiencies and reduces total ownership costs (RTOC). The program's highest priority is to maintain flight safety, but also improves system Operational Readiness (OR) and Reliability and Maintainability (R&M). Historically, aircraft systems change missions, tactics, and environments to meet changing threats throughout their lives. Numerous new problems can develop in the engines through actual use during deployment, production, and service. Engine CIP provides the only funds to develop fixes for these field problems. Engine CIP funding is driven by field events and types/maturity of engines, not by the total engine quantity. Engine CIP starts with delivery of the first production engine purchased with procurement funds, and continues over the engine's life, gradually decreasing to a minimum level (safety/depot repairs) sufficient to keep older inventory engines operational. Engine CIP addresses out-of-warranty usage and life and enables the Air Force to obtain additional warranties when manufacturers incorporate Engine CIP improvements into production engines. Since operational and safety problems arise throughout a system's service life, Engine CIP must be maintained at a level to provide the engineering support to make the changes essential for continued satisfactory system performance at affordable costs. Engine CIP ensures continued improvements in engine R&M factors, which reduce outyear support costs. Historically, R&M related Engine CIP efforts reduce outyear Operations and Maintenance (O&M) and spares costs by a ratio greater than 21 to 1. MAJCOMs assume a viable Engine CIP effort is in place when submitting their budget requests for O&M and engine spares. Without the outyear cost avoidance provided by Engine CIP, outyear support funding would have to be increased drastically.

(U) FY 2000 (\$ in Thousands)

(U) \$118,504	Continuing CIP tasks (such as, but not limited to, improvement, support equipment, and repair tasks)
(U) \$29,389	Continuing engine testing (such as, but not limited to, altitude, sea level, and flight tests)
(U) \$1,821	Continuing petroleum, oil, lubricants
(U) \$1,832	Continuing mission support
(U) \$151,546	Total

PE NUMBER AND TITLE

**0207268F Aircraft Engine Component Improvement  
Program (CIP)**

PROJECT

**1012**(U) **A. Mission Description Continued**(U) **FY 2001 (\$ in Thousands)**

(U) \$137,113 Continuing CIP tasks (such as, but not limited to, improvement, support equipment, and repair tasks)

(U) \$21,702 Continuing engine testing (such as, but not limited to, altitude, sea level, and flight tests)

(U) \$3,000 Continuing petroleum, oil, lubricants

(U) \$3,580 Continuing mission support

(U) \$165,395 Total

Note: The following net transactions are not reflected in the FY01 total: BTR = -3.020M and SBIR = -5.992M. These transactions are not reflected in other sections of the R-Docs where an FY01 total is shown.

(U) **FY 2002 (\$ in Thousands)**

(U) \$137,401 Continuing CIP tasks (such as, but not limited to, improvement, support equipment, and repair tasks)

(U) \$27,700 Continuing engine testing (such as, but not limited to, altitude, sea level, and flight tests)

(U) \$6,500 Continuing petroleum, oil, lubricants

(U) \$3,500 Continuing mission support

(U) \$175,101 Total

(U) **B. Budget Activity Justification**

This program is in budget activity 7 - Operational System Development, Research Category 6.6 because all efforts support fielded systems.

(U) **C. Program Change Summary (\$ in Thousands)**

	<u>FY 2000</u>	<u>FY 2001</u>	<u>FY 2002</u>	<u>Total Cost</u>

## RELATED ACTIVITIES:

(U) - PEs # 0604268A and #0604268N, Army/Navy Aircraft Engine CIPs for prior years

(U) - PEs # 0203752A and #0205633N, Army/Navy Aircraft Engine CIPs for FY 1996 and following years

**(U) E. Acquisition Strategy**

Contracts within this Program Element are awarded sole source to engine manufacturers. CIP tasks are generally assigned to original engine manufacturers. Tasks are assigned based on available funding and prioritization of candidate tasks.

**(U) F. Schedule Profile**

	<u>FY 2000</u>				<u>FY 2001</u>				<u>FY 2002</u>			
	1	2	3	4	1	2	3	4	1	2	3	4

(U)

Not applicable. CIP is a level of effort program that funds 700+ separate engineering tasks per year.
