A. Mission Description and Budget Item Justification:

Office of the Chief Financial Executive (CFE) activities in the Mission Support area focus on the legislative mandates contained in the Chief Financial Officer (CFO) Act, Financial Managers Financial Integrity Act (FMFIA), and the Government Performance and Results Act (GPRA) as well as the Budget and Performance Integration goal of the President's Management Agenda (PMA). The Directorate provides financial services support and financial automation support to the Agency as well as annual Agency-wide financial statements. In addition, it conducts economic analyses, cost estimating and program and organizational assessments. A major challenge is to provide accurate, reliable, and timely financial information in a cost-effective way to support planning, engineering, acquiring, and fielding Global Net-centric solutions and operating the Global Information Grid.

Direction from the DoD Comptroller requires DISA to implement a new accounting system in order to meet the Presidential Management Agenda for Financial Management Improvements that specifically requires: 1) financial management systems meet federal financial management system requirements and applicable federal accounting and transaction standards; 2) accurate and timely financial information; 3) integrated financial and performance management systems supporting day-to-day operations; and 4) unqualified and timely audit opinion on the financial statements; no material internal control weaknesses reported by the auditors. In addition, the OMB/DoD mandated audit of DISA's financial statements have identified material weaknesses in DISA's accounting of its resources. Some of these weaknesses can only be fixed with a new accounting system. This program element is under Budget Activity 7 because it supports operational systems development.

Accomplishments/Planned Program:

Accounting System	<u>FY 05</u>	<u>FY 06</u>	<u>FY 07</u>
Subtotal Cost	0.000	3.291	1.224

RDT&E dollars are required to conduct testing; certification; interface development; and system upgrades of the DISA Standard Finance and Accounting System (DSFAS). DSFAS is a Commercial-Off-the-Shelf (COTS) software that will replace DISA's existing accounting systems: Washington Headquarters Services Allotment Accounting System (WAAS), Financial Accounting Management Information System - Computing Services (FAMIS-CS); Financial Accounting Management Information System - Telecommunication Services and Enterprise Acquisition Services (FAMIS-TSEAS). DSFAS will comply with the DoD Enterprise Architecture and will be Joint Financial Management Improvement Plan (JFMIP) certified.

Change Summary Explanation: FY 2006 change is due to the Congressional Add for the Critical Infrastructure Test Range that will be executed by the Department of Energy, as well as undistributed Congressional reductions to the Defense-Wide RDT&E appropriation. FY2007 change is due to revised fiscal guidance.

C. Other Program Funding Summary:

	<u>FY 05</u>	<u>FY 06</u>	<u>FY 07</u>	<u>FY 08</u>	<u>FY 09</u>	<u>FY 10</u>	<u>FY 11</u>	<u>To Complete</u>	<u>Total Cost</u>

D. Acquisition Strategy: The overall strategy is based upon the fundamental premise that COTS products will continue their evolution through the constant refresh of commercial technology. To maintain an interoperable system, DSFAS will use a single contractor as an overall integrator. Additionally, DSFAS will utilize other contract vehicles within DISA to acquire additional equipment and services to support the implementation of DSFAS.

E. Performance Metrics: DSFAS will be measured by how successfully it reduces the number of financial audit findings with the end result of obtaining a clean audit opinion. DSFAS will also be measured by how well it supports the DISA Balanced Scorecard Strategy to provide greater transparency, quality and timeliness of financial information.
