A. Mission Description and Budget Item Justification: The Unified Command Plan 2002 assigned Commander, U.S. Joint Forces Command (USJFCOM) with the mission as the Joint Force Integrator. Additionally, the Chairman Joint Chiefs of Staff (CJCS) designated Commander, USJFCOM as lead agent to transform the Armed Forces. In support of these two missions, USJFCOM Joint Interoperability and Integration (JI&I), located within Headquarters USJFCOM, is responsible for joint interoperability and integration of future and fielded capabilities critical to Joint, Multi-National, and Interagency warfighting operations. USJFCOM JI&I works closely with Combatant Commanders/Services/Agencies (C/S/A) to ensure warfighting deficiencies are identified, develops synchronized Doctrine, Organizational, Training, Materiel, Leadership, Personnel, and Facilities (DOTMLPF) capability plans to ensure the warfighter has interoperable capabilities.

In January 2003, USJFCOM's JI&I role was expanded to increase operational through tactical level joint integration of the following capabilities: Common Operational and Tactical Pictures; Combat Identification; Situational Awareness; Adaptive Mission Planning and Rehearsal; Interoperability among Service/Agency intelligence systems; Interoperable Joint Fires, Maneuver, and Intelligence; and Integrated Joint Battle Management Command and Control. In this role, USJFCOM will develop a repeatable Joint Mission Thread interoperability test and assessment methodology for use in evaluating Joint Battle Management Command and Control Roadmap execution and to demonstrate this methodology in Joint Close Air Support.

This program provides assessment of required Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance (C4ISR) interoperability for rapid insertion of capabilities across the DOTMLPF spectrum to meet joint warfighters' needs. These capability solutions are achieved through modification of existing or emerging technologies in order to meet unique requirements of the warfighting force.

APPROPRIATION/ BUDGET ACTIVITY RDT&E/ Defense Wide BA# 7

PE NUMBER AND TITLE

0607828D8Z - Joint Integration and Interoperability

As directed by FY 2005 National Defense Authorization Act, JFCOM RDT&E funding for Joint Interoperability and Integration was transferred from Navy program element 0305188N to Defense-Wide program element 0607828D commencing in FY 2007.

FY 2007 funding for Training Transformation was placed in 0305188N BA-7 as a temporary measure until a new program element could be created. Program element 0603757D was subsequently created and funds transferred from 0305188N to 0603757D.

Funding (\$10.000 million in FY 2006 (resident in 0305188N) and \$6.000 million in FY 2007) was provided to develop a repeatable Joint Mission Thread interoperability test and assessment methodology for use in evaluating JBMC2 Roadmap execution. This methodology is to be demonstrated in a Joint Close Air Support pilot program. The FY 2007 funding level was increased by \$4.000 million (from \$6.000 million to \$10.000 million) in order to maintain the FY 2006 level and begin analysis of the second Joint Mission Thread JT&A (JTF C2), to include developing JTF C2 DOTMLPF change requests resulting from the initial analysis. Within the funding provided, JFCOM is to complete the JCAS JMT assessment as a proof of concept of the JT&A methodology.

The \$13.300 million increase in FY 2007 is not a true increase to funds, but a reinstatement to prior funding levels.

C. Other Program Funding Summary: Not Applicable.

D. Acquisition Strategy: Not Applicable.

E. Performance Metrics:

B. Accomplishments/Planned Program:

Accomplishment/Planned Program Title	FY 2005	FY 2006	FY 2007
Integrated Combat Identification and Situational Awareness Capabilities	0.000	0.000	17.928

FY 2007 Plans: Implementation of integrated joint forces capabilities through ongoing strategic to tactical situational awareness initiatives are required to eliminate blue force fratricide. USJFCOM JI&I continues efforts to integrate among joint forces efforts to enhance blue force situational awareness. USJFCOM JI&I is continuing to execute Secretary of Defense and Chairman Joint Chiefs of Staff efforts to provide Combatant Commanders with interoperable combat identification and situational awareness capabilities among United States Forces, Interagencies, and Allied and Coalition Forces in support to the Global War on Terrorism (GWOT) and in multiple theaters of operations.

Accomplishment/Planned Program Title	FY 2005	FY 2006	FY 2007
Interoperable Joint Fires and Intel Capabilities	0.000	0.000	12.951

FY 2007 Plans: USJFCOM JI&I will continue to execute Secretary of Defense and Chairman Joint Chiefs of Staff efforts to provide Combatant Commanders with interoperable Joint Fires (Time Sensitive Targets, Precision Engagement, and Close Air Support) and intelligence capabilities among United States Forces, Interagencies, and Allied and Coalition Forces in support to the Global War on Terrorism (GWOT) and in multiple theaters of operations.
