# The FY 2015 OCO Request will be submitted at a later date.

**A. Mission Description and Budget Item Justification**

- The program element encompasses those activities pertaining to operations support and intelligence integration, cyber technology innovation, intelligence and related activities in Cyberspace, and strategic assessments.
- This program is a part of the overall Department effort to implement best practices and DoD doctrinal processes which require shared responsibility and close synchronization among intelligence, operations and associated planning elements. Joint Warfighter requirements are driving the need for the integration of capabilities across intelligence disciplines and seamlessly connecting them to operational capabilities/capacities.
- The objective of this program is the rapid experimentation and development of existing technologies (hardware, software, databases, analytics, etc.) to create new cyber intelligence capabilities and demonstrate their value in support of operations.

<b>B. Program Change Summary (\$ in Millions)</b>	<b>FY 2013</b>	<b>FY 2014</b>	<b>FY 2015 Base</b>	<b>FY 2015 OCO</b>	<b>FY 2015 Total</b>

# The FY 2015 OCO Request will be submitted at a later date.												
<b>A. Mission Description and Budget Item Justification</b> The Cyber and Intelligence Operations Integration Project will integrate intelligence activities in the information/collaborative environment and Cyberspace with conventional and asymmetric military operations. Further, they will provide new technologies, methodologies and processes to increase the delivery of actionable intelligence from the Defense Intelligence Enterprise to the Warfighter.												
<b>B. Accomplishments/Planned Programs (\$ in Millions)</b>									<b>FY 2013</b>	<b>FY 2014</b>	<b>FY 2015</b>	
<b>Title:</b> Cyber and Intelligence Operations Integration									14.645	7.586	6.748	
<b>FY 2013 Accomplishments:</b> - Developed cyber and Intelligence Operations Integration (IOI) capabilities and capacity to support COCOMs and Services to execute cyber and asymmetric operations activities. - Supported development of critical and emerging cyber, cyber intelligence, and IOI technologies that support warfighter needs.												
<b>FY 2014 Plans:</b> - Develop cyber and IOI capabilities and capacity to support COCOMs and Services to execute cyber and asymmetric operations activities to include critical and emerging cyber, cyber intelligence, and IOI technologies that support warfighter needs.												
<b>FY 2015 Plans:</b> - Continue to develop cyber and IOI capabilities and capacity to support COCOMs and Services to execute cyber and asymmetric operations activities to include critical and emerging cyber, cyber intelligence, and IOI technologies that support warfighter needs.												
<b>Accomplishments/Planned Programs Subtotals</b>									14.645	7.586	6.748	
<b>C. Other Program Funding Summary (\$ in Millions)</b> N/A												
<b>Remarks</b>												
<b>D. Acquisition Strategy</b> The Cyber and IOI acquisition, management, and contracting strategy follows guidance outlined in DoD 5000 series directives, Federal Acquisition Regulation (FAR), and FAR supplement policies and procedures. Management uses project management tools and meetings to ensure delivery of stated capabilities performance criteria.

**E. Performance Metrics**

Performance metrics are measured through internal management controls and external assessments. Performance metrics include, but are not limited to time, money, realism, and fidelity as defined below:

- Time – Enable the warfighter to speed up processes faster than current capabilities allow.
- Money – Enable the warfighter to reduce duplication of effort and to prepare and execute events at a more effective and efficient cost than current capabilities allow.
- Realism – Enable the warfighter to create an environment that is closer to the real world environment than current capabilities allow.
- Fidelity – Ensure unity of efforts throughout the cyber and IOI Communities.
