Note

Beginning in Fiscal Year (FY) 2018, this Program Element (PE) realigns operational and mission support funding from PE 0605301A (Army Kwajalein Atoll) / Project DX2 (Army Kwajalein Test Ranges and Mission Support). Installation management functions for the Reagan Test Site remain in Project DX2.

A. Mission Description and Budget Item Justification

Space and Missile Defense Command-Army Forces Strategic Command (USASMDC-ARSTRAT) funding is for management and contracting personnel support (salaries and travel) to enable the management of the test and evaluation of major Army and Department of Defense (DoD) missile systems for the Ronald Reagan Ballistic Missile Defense Test Site (RTS). RTS began its funding under Program Element (PE)0605301A, Project DX2 in Fiscal Year (FY) 2014. Beginning in FY 2018, operational and mission support functions at RTS are realigned to PE 0606002A. RTS is a tenant on the United States (US) Army Garrison - Kwajalein Atoll (USAG-KA), located within the Kwajalein Atoll in the Republic of the Marshall Islands, which is a remote, secure activity of the Major Range and Test Facility Base (MRTFB). Its function is to support test and evaluation of major Army and DoD acquisition programs and to provide space operations (Space Situational Awareness; object tracking & identification) in support of U.S. Strategic Command (USSTRATCOM) and National Aeronautics and Space Administration (NASA) scientific and unique space programs. Programs supported include Army Missile Defense, Air Force, and Navy Intercontinental Ballistic Missile (ICBM) developmental and operational tests; Army, Air Force, Navy, and Defense Advanced Research Projects Agency (DARPA) hypersonic Boost-Glide developmental tests; Missile Defense Agency (MDA) operational/demonstration/validation tests; USSTRATCOM space situational awareness requirements (including contributions to the U.S. Space Surveillance Network); and National Aeronautics and Space Administration (NASA), ionospheric studies, space debris tracking, and data collection in support of space experiments. RTS is a government-managed/contractor-operated (GMCO) site and is dependent upon its associated support contractors for operations and maintenance (O&M). Program funds contracting support for end item procurement, life cycle acquisition planning, and solicitation, negotiation, award, execution and management for weapon systems contracts. Program funds contractors to accomplish O&M for RTS instrumentation suites and provides mission essential bandwidth via a fiber optics cable system. The instrumentation suite consists of a number of sophisticated, one-of-a-kind, radar, optical, telemetry, command/control/communications, safety, and data reduction systems. These systems include the four unique radars of the Kiernan Reentry Measurement Site (KREMS); Super Recording Automatic Digital Optical Tracker (SRADOT) long range video-metric tracking systems; high density data recorders for high data-rate telemetry collected by ten antennas; an underwater acoustic impact location system; and data analysis/reduction hardware/software and Continental United States (CONUS) based mission control center. The Advanced Research Project Agency (ARPA) Long-Range Tracking and Instrumentation Radar (ALTAIR), and the Target Resolution Discrimination Experiment (TRADEX) radars located at RTS, are the only radars in this area of operation that have deep-space tracking capability. The Millimeter Wave Radar (MMW) is one of the highest resolution imaging radars in the world providing critical intelligence data. Funding enables weapon system assessment of operational effectiveness and suitability for the Army, Air Force, Navy and MDA, which all have programs planned that have significant test and data gathering requirements at RTS. This test data cannot be obtained except through the use of technical facilities available on and in the vicinity of RTS. Program supports Army's PATRIOT air defense system; Air Force's Minuteman III ICBM and the Space and Missile Center's associated programs; MDA's Ballistic Missile Defense System, ICBM Targets, and Layered Ballistic Missile Defense operational tests (including: PATRIOT, Terminal High-Altitude Area Defense (THAAD), and AEGIS weapon systems), and NASA's space experiments.

Change Summary Explanation						
\$61.254 Million in operational and mission support functions for the Ronald Reagan Ballistic Missile Defense Test Site are realigned from PE 0605301A (Army Kwajalein Atoll) / Project DX2 (Army Kwajaelin Test Ranges and Mission Support) to PE 0606002A / Project XW9. Funding for installation management functions at the Reagan Test Site continues through Project DX2.

A. Mission Description and Budget Item Justification												
This Project covers operations and mission support functions at the Ronald Reagan Ballistic Missile Defense Test Site and is managed by Program Executive Office Missiles & Space.												
B. Accomplishments/Planned Programs (\$ in Millions)										FY 2016	FY 2017	FY 2018
Title: Civilian Pay (RTS)										-	-	5.605
Description: Funding covers civilians to perform management oversight of Army and DOD Missile Test programs.												
FY 2018 Plans: Will continue to provide government personnel support (salaries) to enable the management of the test and evaluation of major Army and DoD missile systems.												
Title: Temporary Duty (TDY)/Training/Supplies - Military and Civilian										-	-	0.639
Description: Funding will provide for travel and training for civilians and military to assist in the testing of the Army and DoD Missile system Programs.												
FY 2018 Plans: Will continue to provide government personnel support (training, and travel, GPC) to enable the management of the test and evaluation of major Army and DoD missile systems.												
Title: Outside Obligations/Other Government Agencies										-	-	5.316
Description: Funding provided to other Government Agencies for reimbursable-type work efforts.												
FY 2018 Plans: Will continue to provide support to test and evaluation of major Army and DoD missile systems.												
Title: Fiber Optic Cable (Kwajalein Cable System (KCS))/Inner Ring Submarine										-	-	11.373
Description: Fiber Optic Cable is Provides lease cost for Fiber Optic Cable between Kwajalein and Guam.												
FY 2018 Plans:												

UNCLASSIFIED

Exhibit R-2A, RDT&E Project Justification: FY 2018 Army			Date: May 2017		
Appropriation/Budget Activity 2040 / 6		R-1 Program Element (Number/Name) PE 0606002A / <i>Ronald Reagan Ballstic Missile Defense Test Site</i>		Project (Number/Name) XW9 / <i>Reagan Test Site</i>	
B. Accomplishments/Planned Programs (\$ in Millions)			FY 2016	FY 2017	FY 2018
Will continue to provide funding for lease of the KCS fiber optic cable between Kwajalein Island and Guam, and for backup satellite.					
Title: RTS Contractor Prime Pay (KRS) Description: Provide funding for Prime contractor to perform technical Operation and Maintenance support to support test and space missions. FY 2018 Plans: Will continue to provide technical O&M support (test planning, instrumentation operations and maintenance, systems engineering, flight safety, and launch ordnance) to assure the capability of the Range to support test and space missions.			-	-	21.125
Title: Contractor Material Description: Provide for materials to maintain range capabilities and support test operations. FY 2018 Plans: Will continue to provide critical non-labor materials to maintain critical range capabilities and prevent obsolescence in support of test operations.			-	-	1.834
Title: Federally Funded Research and Development Centers (FFRDC) Contractor Pay (MIT/LL) Description: Provide for technical expertise to RTS leadership for the overall performance of Range Operations. FY 2018 Plans: Will continue to provide technical advice to RTS leadership in support of Range operations, strategic planning, and technical execution of critical technology.			-	-	4.741
Title: Contractor Pay Meteorological Description: Provide capability for weather sensing capability which allows for test planning and execution of the program. FY 2018 Plans: Will continue to provide support for sustained weather sensing capabilities, including weather reporting via radar data. This capability provides critical data to test planning and execution.			-	-	1.954
Title: Ground Transportation Description: Provide transportation of material and passenger between Kwajalein and CONUS. FY 2018 Plans:			-	-	1.490

B. Accomplishments/Planned Programs (\$ in Millions)		FY 2016	FY 2017
Will continue to provide mission specific material and passenger transportation via air (Air Mobility Command) and sea (SDDC) between Kwajalein Atoll and CONUS.			
Title: Mission Specific Environmental Description: Ensures Range Readiness and all regulatory environmental requirements are compliant with range and test requirements. FY 2018 Plans: Will continue to provide the capability to assess and maintain the Range readiness and compliance with environmental requirements.		-	-
			0.542
Title: USNS Worthy - Shipyard Description: Provide for maintenance to keep all parts of the ship operational for testing. FY 2018 Plans: Will provide for required triennial overhaul of marine vessel - Kwajalein Mobile Range Safety System (Worthy). Annual O&M for the Worthy is included in RTS Contractor line above.		-	-
			6.000
Title: Army Contracting Command (ACC) Support Description: Contracting support to administrator the contract vehicle for the program. FY 2018 Plans: Will provide contracting support (salaries, training, travel, etc) to test and evaluation of major Army and DoD Missile System.		-	-
