Note

This program, BA 06 PE 0605826F, project 664127, Acquisition Workforce, is a new start.

In FY 2018, a portion of Operations and Maintenance funding in PEs 0702806F, Acquisition and Command Support, and 0708070F, Logistics Operations, was transferred to PE 0605826F, Acquisition Workforce Global Power, Project 664127 Acq Workforce Direct in order to clearly distinguish the acquisition workforce and increase flexibility in resourcing the mission.

A. Mission Description and Budget Item Justification

The Acquisition Workforce Global Power program element 0605826F transfers funding for the AFLCMC acquisition workforce from the Operations and Maintenance appropriation to the Research Development Test and Evaluation appropriation. This program element is one of eight new direct funded AFLCMC acquisition workforce program elements. The other seven AFLCMC acquisition workforce civilian pay program elements are 0605827F Global Vigilance and Combat Systems, 0605828F Global Reach, 0605829F Global Cyber, Network, and Business Systems, 0605830F Global Battle Management, 0605831F Capability Integration, 0605832F Advanced Program Technology, and 0605898F Management Headquarters.

The Air Force Life Cycle Management Center (AFLCMC) equips U.S. and allied forces with operational weapon systems in support of military and national security operations. The acquisition and product support workforce provides cutting edge weapon systems, sustainment capabilities, and is charged with providing management, tools, and technical and business capabilities needed to oversee acquisition programs throughout their life cycle. The direct funded acquisition workforce funded in this program element will support all phases of acquisition programs to include material solution analysis, technology development, engineering and manufacturing development, production and deployment, and operations and support. This funding does not include costs for base operating support civilian personnel. This program element supports both civilian pay and non-pay support requirements.

This program element is in Budget Activity 6, RDT&E Management Support because this budget activity includes research, development, test, and evaluation efforts and funds to sustain and/or modernize the installations or operations required for general research, development, test, and evaluation.
