Note

Digital Warfare (DW) previously funded in PE 0604231N (Tactical Command System), 0603582N (Combat System Integration), and 0605217N (Common Avionics) in FY18 under DW Proj 3425.

A. Mission Description and Budget Item Justification

The Digital Warfare (DW) supports systems of systems requirements modeling and allocation, development of data technical baselines, digital architectures and data models, and provides data science for enterprise and warfare pilots in support of a composeable, modular Navy.

B. Program Change Summary (\$ in Millions)	FY 2017	FY 2018	FY 2019 Base	FY 2019 OCO	FY 2019 Total

Program Adjustments	0.000	0.000	26.691	-	26.691

Change Summary Explanation

The Increase between FY18 to FY19 is attributed to Model Based Systems Engineering teams creating Data Technical Baselines for programs of record. Additionally, the increase supports the creation of the modeling environment and modeling standards and policies.

Technical: Not applicable. Schedule: Not applicable.

Note

Digital Warfare (DW) previously funded in PE 0604231N (Tactical Command System), 0603582N (Combat System Integration), and 0605217N (Common Avionics) in FY18 under DW Proj 3425.

A. Mission Description and Budget Item Justification

The DW technical initiatives directly support the Chief of Naval Operations (CNO) vision of inherent interoperability across the Navy enabling faster deployment of capabilities to the warfighter.

Naval Air Systems Command (NAVAIR), Naval Sea Systems Command (NAVSEA), Space and Naval Warfare Command (SPAWAR), associated Program Executive Offices (PEOs), warfare and system centers and University Affiliated Research Centers (UARCs)/Federally Funded Research and Development Centers (FFRDCs) will support the Model Based Systems Engineering (MBSE), Technical Design, and Requirements branches in the new DW under Office of the Chief of Naval Operations (OPNAV) N2N6. In order to develop capability from the top down, the DW will develop requirements for the System of Systems (SoS) to include all of the associated interoperability requirements. Due to the complexity of this work, the DW will evolve the traditional requirements development methodology to a MBSE environment that will include associated model extensions, reports, views, configuration management, help desk support, and documentation. This work will be completed by a series of teams, each focused on a separate threat domain, and made up of system modelers, fleet representatives, Program of Record (PoR) representatives, architecture, and interoperability experts. The products generated by these teams will include data technical baselines for domain areas with individual profiles for each program of record, coordinated requirements recommendations, and potential areas for Science and Technology (S&T) and experimentation to fill gaps. The DW will include emerging digital technologies including human/machine teaming.

Each Systems Command (SYSCOM) will be involved in creating Data Technical Baseline (DTB) profiles specific for each PoR. DTBs will consist of interfaces, protocols, content, information quality, architectural aspects, and knowledge base frameworks. SYSCOMs will exercise technical authority to assess PoR compliance to DTBs and Key Performance Parameters (KPPs) in support of gate reviews and system engineering technical reviews.

DW funding supports development of requirements modeling and data science experimentation environment, mission area model-based engineering (MBE) teams, development of digital technical baselines, development of digital architectures, and the development of workforce training in model-based systems engineering.

Navy

Remarks

D. Acquisition Strategy

DW is a non-acquisition effort that informs and matures Navy decisions, which in turn impacts acquisition programs.

E. Performance Metrics

Digital Warfare (DW) Performance Metrics: Goal: Chief of Naval Operations (CNO) to set requirement, to prioritize resources, and lead efforts on information interoperability and human/machine testing. Metric: Echelon I development of requirements associated with modeling, data science experimentation environment, and digital architectures.

The DW will set requirements, prioritize resources, and lead efforts on information interoperability and human/machine teaming. This will result in a workforce that is trained in new systems engineering and modeling concepts and tools. It will also result in development of a requirements modeling environment to include associated model extensions, reports, views, and configuration management and in the development of digital technical baselines for programs to use to ensure cross-domain interoperability.

Exhibit R-4A, RDT&E Schedule Details: PB 2019 Navy

Appropriation/Budget Activity

1319 / 4

R-1 Program Element (Number/Name)
PE 0604027N / Digital Warfare

PE 0604027N / Digital Warfare

Date: February 2018

Project (Number/Name)
3425 / Digital Warfare Office (DWO)

MBE&DT Development

	Sta	art	Er	nd
Events by Sub Project	Quarter	Year	Quarter	Year
Air Spiral 1 (Pilot): Air Spiral 1 (Pilot)	2	2019	2	2020
Air Spiral 2 (C2): Air Spiral 2 (C2)	4	2019	4	2020
Air Spiral 3 (Sensors): Air Spiral 3 (Sensors)	3	2020	3	2021
Air Spiral 4 (Weapons): Air Spiral 4 (Weapons)	1	2022	1	2023
Air Spiral 5 (Logistics, Maintenance, Training): Air Spiral 5 (Logistics, Maintenance, Training)	4	2022	4	2023
Air Model Curation and Threat Updates: Air Model Curation and Threat Updates	3	2023	4	2023
Land Spiral 1 (Pilot): Land Spiral 1 (Pilot)	2	2019	2	2020
Land Spiral 2 (C2): Land Spiral 2 (C2)	4	2019	4	2020
Land Spiral 3 (Sensors): Land Spiral 3 (Sensors)	3	2020	3	2021
Land Spiral 4 (Weapons): Land Spiral 4 (Weapons)	1	2021	1	2022
Land Spiral 5 (Logistics, Maintenance, Training): Land Spiral 5 (Logistics, Maintenance, Training)	4	2022	4	2023
Land Model Curation and Threat Updates: Land Model Curation and Threat Updates	3	2023	4	2023
Digital Pilot Modeling and Analytics: Digital Pilot Modeling and Analytics	1	2019	1	2020
DTB Assessments (Quarterly): DTB Assessments (Quarterly)	1	2019	4	2023
MBSE Tool Development (Semi-Annually): MBSE Tool Development (Semi-Annually)	1	2019	4	2023
Support: DW Support	1	2019	4	2023
DW: Develop Surface Requirements	1	2019	1	2019
DW: Air Functional Gap Analysis	1	2019	1	2019
DW: Develop Air Requirements	1	2019	3	2019
DW: Model IW Capabilities/Req	1	2019	1	2019
DW: IW Functional Gap Analysis	1	2019	2	2019
DW: Develop IW Requirements	2	2019	1	2020
