Operations Against Death Squads – 24 – 30 Oct

On November 1, Security Forces conducted a raid on an al Qaeda in Iraq facility along the Tigris River in the vicinity of Arab Jabur southeast of Baghdad in order to deny sanctuary to the terrorists.

Security Forces discovered an IED factory at the site, which contained numerous IED making chemicals, artillery rounds and other paraphernalia used to make IEDs.

After ensuring the area was clear of any innocent civilians, the facility and bomb-making materials were destroyed in an air strike.

Terrorist IED Factory Destroyed
