WAR PSYCHIATRY
The Coat of Arms
1818
Medical Department of the Army

The first line of medical defense in wartime is the combat medic. Although in ancient times medics carried the caduceus into battle to signify the neutral, humanitarian nature of their tasks, they have never been immune to the perils of war. They have made the highest sacrifices to save the lives of others, and their dedication to the wounded soldier is the foundation of military medical care.
The TMM Series

Part I. Warfare, Weaponry, and the Casualty
   Medical Consequences of Nuclear Warfare (1989)
   Conventional Warfare: Ballistic, Blast, and Burn Injuries (1991)

   Anesthesia and Perioperative Care of the Combat Casualty (1995)
   Combat Injuries to the Head, Face, and Neck
   Combat Injuries to the Trunk
   Combat Injuries to the Extremities and Spine
   Rehabilitation of the Injured Soldier
Soo Suk Kim, a 22-year-old art student, painted War in 1966 as a gift to his brother-in-law, Captain Franklin D. Jones, who was serving as a division psychiatrist in Vietnam. Soo Kim had experienced war first-hand as a 6-year-old refugee during the North Korean occupation of Seoul, hiding from a communist edict calling for the execution of his prominent family. The painting depicts his childhood recollection of the horrors and chaos of war.
