General Notes:

1. For reporting purposes, all amounts are presented in USD. The conversion rate applied was the same as used by the United Nations to convert contracts denominated in EURO into USD.
2. United Nations OFFP records – Refers to databases and records maintained by the United Nations, specifically, the Office of the Iraq Programme (OIP) and the United Nations Treasury Department.
3. SOMO surcharge records – Refers to the State Oil Ministry Organization (SOMO) ledger of surcharges collected from September 2000 to March 2003.

Column Descriptions:

1. Contracting Company – The name of the contracting entity. The entities are listed in alphabetical order by their known legal name at the time that the information was compiled. Some of these entities are no longer active or have been dissolved; others are subsidiaries of other organizations. There are a total of 249 entities that lifted oil. (Source: United Nations OFFP records).
2. Mission Country – The country, or countries, with which the purchaser registered to buy oil from Iraq under the Programme as designated in United Nations records. (Source: United Nations OFFP records).
3. Contract – The contract number assigned to a contract to purchase oil. (Source: United Nations OFFP records).
4. Barrels Lifted – The amount of barrels of oil lifted by the contracting entities as reflected in the United Nations records. In total, some 3.4 billion barrels were lifted by contracting entities under the Programme. (Source: United Nations OFFP records).
5. Contract Value – The aggregate amount in USD expended by a contracting entity for the purchase of oil. For all contracts, this amount totaled \$64.2 billion. (Source: United Nations OFFP records).
6. Surcharges Levied – The total amount of surcharges levied on the contracts executed by a contracting entity. This information is based on Ministry of Oil records. The total amount of surcharges levied is \$263.3 million. (Source: SOMO surcharge records).
7. Surcharges Paid – The amount of surcharges paid on the contracts executed by a contracting entity. This information is based on Ministry of Oil records and amounts to approximately \$228.8 million. (Source: SOMO surcharge records).
8. Surcharges Outstanding – The difference between surcharges levied and surcharges paid is approximately \$34.5 million. (Source: SOMO surcharge records). It appears that occasionally Iraq applied a surcharge payment to the wrong contract number for a particular purchaser, resulting in a negative outstanding surcharge balance. Additional differences were due to advanced payments and discrepancies between UN and SOMO data.
