Summaries of U.S. **Appropriated Funds**

Iraq Relief and Reconstruction Fund 1 and Other Funding under P.L. 108-11

The first U.S. appropriation specifically for the relief and reconstruction of Iraq occurred in April 2003. The Congress passed P.L. 108-11, creating the Iraq Relief and Reconstruction Fund (IRRF 1). Through IRRF 1, \$2.475 billion was made available to the U.S. Agency for International Development (USAID), Department of Defense (DoD), Department of State (DoS), Department of Treasury (Treasury), and U.S. Trade and Development Agency (USTDA).

Initially, IRRF 1 reconstruction managers were focused on the immediate humanitarian needs of post-conflict environments and addressing the rehabilitation and reconstruction of Iraq. IRRF 1 was intended to provide a rapid, short-term infusion of funds to help jumpstart the recovery of Iraq in the post-conflict period. To address this focus, most funding was apportioned to USAID (71.2%), followed by DoD (22.8%), DoS (5.5%), Treasury (0.3%), and USTDA (0.2%).

IRRF 1 funds expired in September 2004; however, an account balance remains available to make legitimate obligation adjustments, to document previously unrecorded obligations, and to make upward adjustments in previously underrecorded obligations.

USAID's IRRF 1 programs, funded by \$1.617 billion, are now complete. The major program areas are an extension of the overall goals of the fund:

- Restore Economically Critical Infrastructure
- Improve Efficiency and Accountability of Government
- Support Education, Health, and Social Services
- Relief: Office of Foreign Disaster Assistance
- Office of Transition Initiatives (OTI), Expand **Economic Opportunity**

DoD is the second-largest implementer of IRRF 1 funds, apportioned \$518.28 million. Nearly all of these funds have been obligated,

and \$517.94 million has been expended.2 The agency administered programs to aid in the restoration of critical infrastructure, including:

- Restore Iraqi Electricity (RIE)
- Restore Iraqi Oil (RIO)
- First Responder Network/DIILS

The Gulf Region Division (GRD) reported that many of the projects started under the IRRF 1 were subsumed by IRRF 2 programs. Therefore, outputs and outcomes from the IRRF 1 are covered by the stated outputs and outcomes of IRRF 2 programs.3

DoS was apportioned just more than \$125 million of the IRRF 1, and all of these monies have been obligated. As of March 31, 2008, just more than \$116 million had been expended.4 IRRF 1 expenditures by DoS were largely for rule-of-law efforts, including:5

- · Police/Prison Programs: Reconstruction and Modernization of Detention Facilities
- · Relief Efforts: Migration and Refugee Assistance
- Law Enforcement: Bureau of International Security and Nonproliferation and Bureau of International Narcotics and Law Enforcement Affairs (INL)
- Humanitarian Demining: minefield and battle-area clearance operations

All of Treasury's \$6 million apportionment has been obligated for technical assistance. As of March 31, 2008, more than \$5 million had been expended.⁶ The USTDA was apportioned \$4.9 million via the IRRF 1. As of March 31, 2008, it had obligated all of its IRRF 1 funding and

expended \$4.7 million to provide economicrelated assistance and capacity development for Iraqi officials.

Other Funds under P.L. 108-11

P.L. 108-11 also created the Natural Resources Risk Remediation Fund (NRRRF) and made \$489 million available "for expenses necessary, in and around Iraq, to address emergency fire fighting, repair of damage to oil facilities and related infrastructure."

Funds for the daily operations of the Coalition Provisional Authority (CPA) were made available as well. In November 2003, P.L. 108-106 made more substantial funding available for CPA, and although it ceased operations on June 28, 2004, contractual payment of obligations resulting from contracts awarded during its tenure are still being fulfilled. Most of the funds (55%) allocated in P.L. 108-11 were used for the rehabilitation of Iraqi infrastructure—primarily oil production and electricity generation. Other major uses include humanitarian relief, governance initiatives, and health and social services.

Iraq Relief and Reconstruction Fund 2 under P.L. 108-106

Under P.L. 108-106, \$18.439 billion in funds were made available to further support U.S. agencies managing the reconstruction effort. After assessing the state of Iraq's infrastructure, the United States set additional priorities for IRRF 2 projects in core areas to address years of critical neglect, entailing large projects in the oil, electricity, and water sectors. The act mandates specific funding totals by sector, with limitations on the transfer of funds among sectors and guidelines for congressional approval of larger modifications.

Apportioned funds are restricted to six departments or agencies: DoD, DoS, USAID, Treasury, the U.S. Institute of Peace (USIP), and Department of Health and Human Services (HHS). DoD oversees the largest percentage of IRRF 2— more than \$13 billion of the total.⁷

On September 30, 2008, authority for obligating funds for new projects under the IRRF 2 expired. To date, more than \$17.86 billion has been obligated, and \$17.26 billion has been expended for reconstruction efforts in Iraq. All unobligated funds remain available only for modifications and adjustments to existing contract obligations.8

Commanders' Assistance Programs

Military assistance programs continue to play a vital role in the reconstruction of Iraq. In an insecure environment, area commanders can develop the necessary relationships with Iraqi civic leaders to initiate crucial local projects.

Commander's Emergency Response Program

Since May 2003, the Commander's Emergency Response Program (CERP) has been used to produce targeted local relief and reconstruction efforts throughout Iraq. Initially, CPA created the fund with seized Iraqi assets and oil revenue from the Development Fund for Iraq (DFI). By late 2003, the Congress began to appropriate U.S. funds to these projects—the most recent, in June 2008.

Unlike the large-scale infrastructure work funded by the IRRF 2, CERP projects were intended to be smaller and more responsive to the immediate priorities of maneuver commanders.9 The Multi-National Corps-Iraq (MNC-I), which coordinates use of the CERP, issues guidance for the selection and use of the funds in its publication Money as a Weapons System (MAAWS). Included in MAAWS, MNC-I publishes the CERP Standard Operating Procedures (SOP) for proposing projects, awarding contracts, and managing activities.¹⁰ The SOP indicates that key elements for project selection are speed of execution, ability to employ Iraqis, benefit to the Iraqi people, and visibility to the community.¹¹

TABLE E.1 **U.S. APPROPRIATIONS TO THE CERP (\$ MILLIONS)**

APPROPRIATION	DATE	AMOUNT
P.L. 108-287	8/5/2004	\$140
P.L. 109-13	5/11/2005	\$718
P.L. 109-148	12/30/2005	\$408
P.L. 109-234	6/15/2006	\$300
P.L. 109-289	9/29/2006	\$375
P.L. 110-28	5/25/2007	\$375
P.L. 110-161	12/26/2007	\$370
P.L. 110-252	6/30/2008	\$875
Total		\$3,561

The CERP was initially intended primarily for small-scale projects that would benefit the local population.¹² These projects often supplement the long-term benefits produced by large infrastructure projects and reinforce economic efforts on a local level.¹³ Overall funding trends are consistent with these priorities; however, the use of CERP funds has evolved both numerically and categorically.

In addition, the GOI funded a similar CERPequivalent program, which is is executed from GOI funds through the U.S.-administered CERP mechanisms. For appropriations to the CERP, see Table E.2.

Commanders Humanitarian Relief and Reconstruction Program and Iraqi Interim Government Fund

In 2004, Iraq's governing body established the Iraqi Interim Government Fund (IIGF), with \$136 million from the DFI, to support U.S. military commanders in responding to the urgent humanitarian relief and reconstruction requirements of the local population in their areas of responsibility. In response to an Iraqi demand to match the IIGF, a separate program—the Commanders Humanitarian Relief and Reconstruction Program (CHRRP)—was created with \$86 million of the IRRF 2.

The Multi-National Force-Iraq (MNF-I) maintains IIGF and CHRRP funding. Iraqi government projects must be selected from a project list approved by the Iraqis and MNF-I.

Economic Support Fund (ESF)

Since 2003, the U.S. Congress has appropriated nearly \$3.74 billion to the Economic Support Fund (ESF). The ESF is a bilateral economic assistance account for use by U.S. allies and countries in democratic transition to promote U.S. foreign policy objectives. 14 "Funding to the ESF was intended to continue programs to sustain U.S.-funded infrastructure and to support democracy, governance, civil society, economic policy reform, private sector, and agriculture programs."15

Several ESF programs are continuing work that was started with funding from the IRRF. They address work to stabilize communities, provide support to the victims of violence, and fund critical sustainment work to protect the U.S. investment allocated to infrastructure construction.

DoS is responsible for managing project identification, priorities, requirements, and funding for ESF projects. Under policy guidance from DoS, USAID and the Gulf Region Division (GRD) of the U.S. Army Corps of Engineers implement most ESF programs. As the primary executing agencies, GRD and USAID received approximately 89% of ESF allocations.

TABLE E.2 U.S. APPROPRIATIONS TO THE ESF (\$ MILLIONS)

Appropriation	DATE	AMOUNT
P.L. 108-7	2/20/2003	\$40
P.L. 108-11	4/16/2003	\$10

P.L. 110-252	6/30/2008	\$527
Total		\$3,738

ESF program funding is aligned with security, economic, and political objectives:

- The security track receives the largest allocation of funds, about 64%, to strengthen the coordination between the GOI and local groups and assist in securing critical infrastructure to improve the GOI's ability to deliver essential services.
- The **economic track** receives 17% of ESF funding, promoting development through sustainment of assets, training programs, increased access to finance, and other economic and capacity-building activities.
- The **political track** receives 19% of total funding, assisting the GOI in strengthening core ministry functions and supporting governance-building initiatives.

For a list of appropriations to the ESF, see Table E.3.

Iraq Security Forces Fund (ISFF)

On May 11, 2005, the Congress authorized creation of the Iraq Security Forces Fund (ISFF) in P.L. 109-13. Administered by DoD, the ISFF is now the second-largest U.S. reconstruction fund created for Iraq. This fund allows the Commander, Multi-National Security Transition Command-Iraq (MNSTC-I), to provide assistance to the Iraqi Security Forces (ISF). The ISF is made up of the Police Service, the National Police, and the Directorate of Border Enforcement, under the Ministry of Interior; the Ground Forces (Army), the Navy, and the Air Force; and Support Forces, under the Ministry of Defense; and the Special Operations Forces under the Counter-Terrorism Bureau

ISFF projects support the ISF—through the Ministry of Defense (MOD) and Ministry of Interior (MOI)—with equipment, supplies, services, and training, as well as repair, renovation, and construction of facilities and infrastructure.¹⁶ Approximately 96% of ISFF obligations fund four primary sub-activities:17

- Equipment and Transportation
- Training and Operations
- Infrastructure
- Sustainment

A small portion of ISFF funding is also divided among these programs: 18

- Quick Response Fund¹⁹
- Detainee Operations
- Lift and Sustain²⁰
- · Disarmament, Demobilization, and Reintegration
- Prosthetics

Nearly 33% of all U.S. reconstruction funding has been appropriated to the ISFF. For a list of these appropriations, see Table E.4.

Status of Funding

SIGIR compiled data on the sources, uses, and status of Iraq reconstruction funds from the Defense Finance and Accounting Service, USACE, DoS, USAID, Treasury, DoD Washington Headquarters Service (WHS), MNC-I, USTDA, Iraq Transition Assistance Office (ITAO), Overseas Private Investment Corporation (OPIC), USIP, DoJ, and Corps

of Engineers Financial Management System. SIGIR analyzed the data for reasonableness and consistency across sources of data to the extent practical but did not independently validate the data. SIGIR did not review or audit the processes, controls, or systems in place at the providing agency or organization. SIGIR accepted the data provided and believes that the presentation of sources and uses of funds in this Report is a reasonable compilation of the status of Iraq relief and reconstruction funding through September 30, 2008 (unless an alternative date is noted).
