

INTERNATIONAL DONOR ASSISTANCE TO THE GOI

Donor assistance to the GOI includes bilateral and multilateral development assistance in loans and grants. As of September 30, 2010, the Department of State (DoS) reported \$18.10 billion in total donor pledges, including \$5.26 billion in grants

and \$12.84 billion in loans.¹ Donor commitments totaled \$12.01 billion—\$6.15 billion in grants and \$5.86 billion in loans.² For an overview of bilateral and multilateral development assistance, see Figure C.1.

Bilateral Development Assistance

As of September 30, 2010, \$8.33 billion in bilateral assistance had been committed to Iraq.³ The largest international (non-U.S.) donors include Japan, which has committed \$4.49 billion through grants and loans, and the European Union (EU), which has committed \$0.71 billion through grants.⁴ This quarter, total commitments increased by an estimated \$50 million (0.4%), which came entirely from Iran's continuing implementation of projects arising from its numerous memoranda of understanding for economic cooperation.⁵

Multilateral Development Assistance

As of September 30, 2010, \$3.67 billion in multilateral assistance has been committed to Iraq. Multilateral development assistance includes loan commitments and pledges from the World Bank, International Monetary Fund (IMF), and Islamic Development Bank (IDB), as well as the International Reconstruction Fund Facility for Iraq (IRFFI) grants funded by donor deposits.⁶

International Reconstruction Fund Facility for Iraq

The IRFFI was launched in 2004 to help donor nations channel their resources and coordinate support for reconstruction and development in Iraq. The facility comprises the World Bank Iraq Trust Fund (WB ITF) and the United Nations Development Group Iraq Trust Fund (UNDG ITF.) New IRFFI projects must start by the end of 2010; project completions and disbursements are to take place no later than December 31, 2013.⁷ As of September 30, 2010, 25 IRFFI donors, including the United States, had committed \$1.86 billion for Iraq reconstruction.⁸ The largest IRFFI contributors are the EU (\$774 million in IRFFI deposits), Japan (\$492 million), and the United Kingdom (\$127 million).⁹

International Monetary Fund

On October 1, 2010, the IMF completed the first review of Iraq's economic performance under the 24-month Stand-By Arrangement (SBA), which was approved in February 2010. According to the IMF, completion of the review makes an additional \$741 million available for disbursement to Iraq.¹⁰ It is not yet clear how this new availability will affect committed and pledged amounts. More detailed reporting will be provided in the next SIGIR Quarterly Report.

World Bank

The World Bank funds several programs to support the GOI in addressing reconstruction needs, such as:

- restoring basic services
- supporting private-sector development
- enhancing social safety nets
- improving public-sector governance

This support for Iraq reconstruction is funded primarily with \$497 million in commitments to the WB ITF.¹¹ The cutoff date for donor contributions for the WB ITF was December 31, 2008, and donors have agreed to terminate the fund on December 31, 2013. By this deadline, all WB ITF funding must be disbursed, and all projects will be completed.¹² As of August 31, 2010, the WB ITF has financed 24 projects, four of which have been fully implemented and closed. The remaining 20 projects are currently under implementation.¹³

The World Bank has provided assistance to Iraq to develop social services through its International Development Association (IDA). Five IDA loans have been approved for Iraq, totaling \$508.5 million.¹⁴ For the status of these projects, see Table C.1.

United Nations

UNDG ITF commitments to the IRFFI total \$1.36 billion.¹⁵ The UNDG ITF has approved 176 joint projects totaling \$1.29 billion, leaving \$112 million to be committed to new projects.¹⁶ The cutoff date for donor contributions for the UNDG ITF was

TABLE C.1
WORLD BANK IDA LOANS
 \$ Millions

PROJECT NAME	PROJECT AMOUNT	APPROVAL DATE	IMPLEMENTING AGENCY	DESCRIPTION	STATUS
Third Emergency Education	100.0	11/2005	Ministry of Education	Assists the Ministry of Electricity through reducing school overcrowding and strengthening its capacity to improve the quality of teaching and curricula.	The Bank's Board approved project restructuring in June 2009. The project will now support educational infrastructure (school construction), institutional strengthening (teacher training and curricula development), and project management.
Emergency Road Reconstruction	135.0	6/2006	Ministry of Construction & Housing	Assists in the rehabilitation of highways and village access roads in central, northern, and southern Iraq. Three floating bridges will also be replaced with permanent structures.	Rehabilitation in the KRG is underway and disbursing. Progress in central and southern Iraq is expected to move forward because of the expected tender of a large contract.
Dokan and Darbandihkan Hydropower	40.0	12/2006	KRG Ministry of Electricity	The plan aims to upgrade electricity supply in the Kurdistan region and the national grid. The project will directly impact an estimated 490,000 households and benefit industrial consumers.	A majority of contracts are finalized, and the draft Environmental Preparedness Plan is complete and under review. A supervision and implementation consultant recommended that three rehabilitation projects be considered for additional financing.
Emergency Electricity	124.0	3/2007	Ministry of Electricity	Aims to restore the base-load generating capacity of the Hartha power plant and build capacity at the Ministry of Electricity.	A contract to rehabilitate the Hartha power plant was signed in April 2009. The main contract commits the entire IDA credit. An Environmental and Social Impact Assessment has been completed.
Emergency Water Supply	109.5	6/2008	Ministry of Municipalities and Public Works	Intends to improve the quantity and quality of water availability in four high-priority provinces. Assists the GOI on developing a sustainable policy for the water sector.	Roughly \$74 million has been committed while three more works packages and two consultancy services are yet to be tendered. These additional services would commit another \$32 million.

June 30, 2009; any funds that are not committed to a specific project by December 31, 2010, will be returned.¹⁷ To meet this requirement, the UN agreed that no new projects would be approved after June 30, 2010.¹⁸ Any remaining UN funds will be deposited in the UN's general Multilateral Donor Trust Fund and will go to support activities overseen by the UN Assistance Mission for Iraq (UNAMI).¹⁹

Sources for International Donor Information

SIGIR continues to note the challenges in reporting on international contributions to Iraq reconstruction. As Iraq shifts to normalized relations with the international community, the United States is less able to track international funding. Efforts by international donors now focus on helping Iraq sustain its progress. While some donors continue to support Iraq with technical assistance, economic

development projects, and project financing, others are focusing on building relationships based on conventional trade and investment.²⁰ The Department of State's Bureau of Near Eastern Affairs-Iraq (NEA-I) does not expect substantial additional increases in donor commitments for Iraq reconstruction.²¹

Department of State

NEA-I provides SIGIR with quarterly updates on international pledge and commitment figures from donor countries and international organizations.

Iraq Development Management System

Development has begun on a new Iraq Development Management System (IDMS), which is expected to unify all capital project databases being tracked by Iraq's Ministry of Planning and Development Cooperation, including the Development Assistance Database (DAD).²²

The DAD was established to serve as a reliable and credible source of information on donor

INTERNATIONAL DONOR ASSISTANCE TO THE GOI

contributions for the reconstruction, economic recovery, and socioeconomic development of Iraq.²³ However, there is no standard reporting requirement for donors to provide data and no set time frame for updates to the DAD to be completed. Thus, a comparison of DoS donor pledge figures with data available in the DAD does not provide an accurate or complete picture of the status of donor support.

As of October 18, 2010, the DAD reported total commitments of \$6.03 billion and disbursements of \$3.02 billion.²⁴ For an overview of Iraqi donor spending reported in the DAD, see Table C.2 and Table C.3.

The inconsistent nature of DAD reporting requirements has resulted in significant differences between figures reported by NEA-I and DAD. For a breakdown of these differences, including committed, pledged, and disbursed amounts, see Figure C.2. ♦
