Highlights

1. **Defeat the Terrorists and Neutralize the Insurgents**
   In a May 9 press briefing, Coalition spokesman Major General William Caldwell said that although six months ago some said al-Anbar was lost, today - due to the patience, perseverance, and commitment of the people in that province - there are encouraging signs of security progress. Recent combined operations in Ramadi with Iraqi security and Coalition forces, including the establishment of Iraqi police stations and joint security stations throughout the city, have proven successful in clearing the majority of the city of insurgents and al-Qaida in Iraq.

2. **Transition Iraq to Security Self-Reliance**
   The Iraqi Army began issuing U.S. M-4 carbines and M-16 rifles to their soldiers this month. In order to account for the weapons issued, a series of biometrics, such as fingerprinting, eye retinal scans, and voice recordings are collected. Additionally, a photograph of the soldier with his weapon is taken, showing the serial number.

3. **Help Iraqis to Forge a National Compact for Democratic Government**
   The Iraqi constitutional reform committee sent to Iraq’s Council of Representatives a plan to reform the constitution, an important step towards implementing national reconciliation.

4. **Help Iraq Build Government Capacity and Provide Essential Services**
   The al-Mahallabiya Primary Health Center-A in Ninewa province was recently completed using Iraq Relief and Reconstruction Fund (IRRF) funding. As a result, over 5,000 Iraqi citizens living in and around this village west of Mosul and south of Tal Afar will benefit with increased access to advanced healthcare services.
5. Help Iraq Strengthen Its Economy
Just back from the official launch of the International Compact with Iraq, the senior United Nations envoy on the issue said that he will travel to Riyadh to discuss aid to Iraq with Saudi officials.

6. Help Iraq Strengthen the Rule of Law
The Central Criminal Court of Iraq convicted 33 individuals April 30-May 5 for violations of the Iraqi Terrorist Law, Penal Code, and Coalition Provisional Authority Orders enforced by the Iraqi judiciary.

7. International Support for Iraq
Japan’s lower house of parliament approved a two-year extension of the country’s air force transport mission in Iraq. Prime Minister Shinzo Abe’s government has argued that the mission is needed to help stabilize Iraq and prevent the spread of terrorism.

8. Strengthen Public Understanding of Coalition Efforts and Public Isolation of the Insurgents
The Iraqi Parliament voted May 9 to begin legal proceedings against al-Jazeera television after the Arabic news channel allegedly made insults against Shiite cleric Grand Ayatollah Ali al-Sistani. Several deputies suggested that the network be sued before the International Criminal Court in The Hague for what they said amounted to fueling sectarian violence in Iraq.
[1.] Defeat the Terrorists and Neutralize the Insurgency

Signs of Improvement in Anbar Province:

• In a May 9 press briefing, Coalition spokesman Major General William Caldwell said that, although six months ago some said al-Anbar was lost, today - due to the patience, perseverance, and commitment of the people in that province - there are encouraging signs of security progress.

• Increasing collaboration between tribal and Iraqi key leaders has resulted in numerous elected municipal councils and much more active community mayors. Successful tribal engagement has also brought a dramatic rise in recruitment for both the Iraqi Army (IA) and the Iraqi police from among the Anbari population. The last three basic training courses for the IA ran over 100% of capacity just to handle all of the new recruits – in spite of al-Qaida’s continuous campaign of murder and intimidation.

• Recent combined operations in Ramadi with Iraqi security and Coalition forces, including the establishment of Iraqi police stations and joint security stations throughout the city, have proven successful in clearing the majority of the city of insurgents and al-Qaida in Iraq.

Iraqi Military Takes Charge of Training:

• The Iraqi Army began issuing U.S. M-4 carbines and M-16 rifles to their soldiers this month. In order to account for the weapons issued, a series of biometrics, such as finger printing, eye retinal scans, and voice recordings are collected. Additionally, a photograph of the soldier with his weapon is taken, showing the serial number.

Iraqi Health Care Professional Enhance Skills:

• Nearly 30 Iraqi nurses, doctors, medics, and laboratory and radiology technicians completed an eight-week Trauma Clinical Rotation Program at the Ibn Sina Hospital in Baghdad May 10. The day also marked the grand opening of the Iraqi Surgeon General’s Trauma Simulation Lab, where Iraqi health care staff will now train with state of the art equipment.

**Total Trained & Equipped ISF:**

* Ministry of Interior Forces: Unauthorized absence personnel are included in these numbers
** Ministry of Defense Forces: Unauthorized absence personnel are not included in these numbers
*** Army numbers include Special Operations Forces and Support Forces
**** Does not include the approximately 144,000 Facilities Protection Service personnel working in 27 ministries

[3.] Help Iraqis to Forge a National Compact for Democratic Government – Developments

Iraq Makes Progress on Crucial Constitution Reform Plan:

• The Iraqi constitutional reform committee sent to Iraq’s Council of Representatives (CoR) a plan to reform the constitution, an important step towards implementing national reconciliation.

New Political Alliance in Iraq Parliament:

• Members of Iraq’s CoR are working to form a new political alliance that includes the Kurdish list. Member of Parliament Mahmoud Othman said Iraqi President Jalal Talabani called three weeks ago to form a political bloc with the participation of all Iraqi sects in order to support the government and renounce political sectarianism.

Iraq’s Parliament Objects to Security Walls, Summons Maliki:

• Iraq’s CoR adopted a resolution objecting to the construction of security walls around Baghdad neighborhoods and calling on Prime Minister Nuri al-Maliki to testify concerning security issues in the country.

[4.] Help Iraq Build Government Capacity and Provide Essential Services – Health Care and Electricity

Health Care:

- The al-Mahallabiya Primary Health Center-A in Ninewa province was recently completed using Iraq Relief and Reconstruction Fund (IRRF) funding. This 1,155 square meter facility will provide medical/dental services, medical/dental X-ray capabilities, vaccinations, laboratory testing, a pharmacy and public education. As a result, over 5,000 Iraqi citizens living in and around this village west of Mosul and south of Tal Afar will benefit with increased access to advanced healthcare services.

Electricity:

- For the week of May 9-15, power from the grid met 37% of total demand nationally and 29% for Baghdad.

- There are currently nine 400kV lines out of service, seriously impacting the power flows around the country. As a result, the system remains very fragile and experiences frequency drops that result in units tripping, as well as blackouts in several areas of the country. The energy Fusion Cell has been tasked to assist in providing security for the repair of the Mussayib-Baghdad south lines, the Baghdad West-Baghdad South line, and the Haditha-Baghdad West line. The Ministry of Electricity is responsible for repairing the Bayji Baghdad West #1 line, and the Baghdad North to Baghdad West line. The other line outages are likewise the Ministry’s responsibility, and may be delayed as security issues are addressed.

Central Bank’s US Dollar (USD) Currency Auction:

- The following table shows volume sold of and exchange rates for USD in the Iraqi currency auction since April. Since September, the Central Bank has slowly appreciated the dinar, as suggested by the IMF, in an effort to rein in galloping inflation. There are early signs that this effort may have begun to bear fruit, as year-to-date inflation is 2.8%, which projects a pace well below the IMF annual target of 30%.

Iraq’s commercial debt was approximately $22 billion before the debt-swap arrangement. The bonds, which are not yet rated, will mature in 2028. The bonds’ current yield of 9.6 percent remains one of the highest in the world for sovereign debt instruments.

Update on Iraqi Tariff Laws and Collections:

• The Council of Representatives (CoR) held a second reading of the Reconstruction Levy Law, which extends the 5% levy on imports imposed by Coalition Provisional Authority (CPA) Order #38, with collected funds to be used for reconstruction efforts. Currently, there is no law to enforce, because the Reconstruction Levy Law expired September 19, 2005.

• In the text of this draft law, donations, including U.S. reconstruction efforts, remain exempt from the levy. The CoR is debating whether the law should stipulate its validity for a period of time, or if it should stipulate that it will be remain valid until appropriate customs legislation is passed. GOI officials are working on customs legislation, but that law is still in draft form and has not yet been submitted to the Council of Ministers.

President Signs Executive Order Creating Iraq Transition Assistance Office:

• On May 8, the President signed an Executive Order creating the Iraq Transition Assistance Office.

UN Envoy Gambari Will Travel to Riyadh to Discuss Saudi Debt Relief:

• Just back from the official launch of the International Compact with Iraq, a five-year plan for peace and development, Ibrahim Gambari, Secretary-General Ban Ki-moon’s Special Adviser for the International Compact with Iraq and Other Political Issues, said that he will travel to Riyadh to discuss aid to Iraq with Saudi officials. “There are all kinds of negotiations going on, particularly between Saudi Arabia and Iraq, Kuwait and Iraq, Bulgaria and Iraq in terms of the details of their commitments,” Gambari said.

Cautious Optimism on Inflation Continues:

• The Ministry of Planning and Development Cooperation’s Consumer Price Index for April showed that overall inflation was 1.9% for the month, which put year-to-date inflation at 2.8%, which projects a pace well below the International Monetary Fund annual target of 30%. Core inflation (which excludes fuel and transport prices) was -0.9%, with year-on-year core inflation at 17.9%, down from 23.0% in March. There is cautious optimism that the Central Bank of Iraq’s monetary tightening is having the desired effect.
